Program Description
Overview
The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

This solicitation provides funding for communities to develop and provide support services for children exposed to violence as well as training and technical assistance to child and family-serving organizations to help them better recognize and help families at risk for violence.

Statutory Authority

Any awards under this solicitation will be made under the statutory authority provided by a full-year Department of Justice appropriations act for FY 2021

Specific Information
Nearly two-thirds of children in the United States have been exposed to violence in their homes, schools, or communities. Violence in the community can prevent children from feeling safe in their own schools and neighborhoods. Such exposure can cause them significant physical, mental, and emotional harm, with long-term effects that can last well into adulthood. Exposure to violence can limit children’s potential and health, and increase their likelihood of becoming involved in the juvenile or criminal justice system. In order to address this exposure, this solicitation will primarily focus on the prevention of exposure to violence and early intervention to support children and families who are impacted.

There are two categories of funding available under this solicitation:

**Category 1: Project Sites.** Funding under this category can be used to develop and/or enhance support services for children exposed to violence in their homes, schools, and communities; and to develop, enhance, and implement Community Violence Intervention (CVI) strategies (i.e., community-based gun violence interventions such as street outreach, violence interrupters, group violence intervention, and hospital-based violence interventions) that focus on addressing juvenile delinquency and crime through informed approaches. These approaches can also include efforts to build trust between, youth, the community, and law enforcement. Applicants using CVI strategies will receive priority consideration. Please see further information under Priority areas below (page 6).

**Category 2: Training and Technical Assistance.** In addition to supporting program implementation and direct service activities, the initiative will fund a training and technical assistance provider to support the Category 1 project sites and provide general training activities focused on exposure to violence as well as youth violence prevention and intervention.

Goals, Objectives, Deliverables, and Timeline
The overall goal of the program is to build the capacity of families and communities to help children exposed to violence.

Objectives
- Improve family and community responses to children exposed to violence.
- Increase protective factors to prevent juvenile violence, delinquency, and victimization.
- Support communities to develop, design, and deliver prevention and intervention strategies to support children exposed to violence.

Deliverables

**Category 1: Project Sites**
Project sites can use funding to support any or all of the following strategies:
- Enhance and/or develop supportive services for children exposed to violence in their homes, schools, and communities.
- Develop community-based violence prevention and intervention approaches that address risk factors and build on protective factors to reduce juvenile delinquency and crime in areas with high exposure to violence.
- Provide direct, person-to-person outreach strategies to increase awareness and build the capacity of families and communities to help children exposed to violence.

In order to be successful in addressing issues related to children exposed to violence, it is important for communities to build a comprehensive approach that will maximize existing and new resources. Applicants must propose and undertake their work through a multidisciplinary team of stakeholders, which may be either an existing collaborative group or one that is formed specifically for this project. A description of the team structure must be referenced in the program narrative and must be submitted as an attachment labeled “Planning Team.” This planning team should meet regularly throughout the project period to identify and address service gaps and barriers, create a blueprint for a comprehensive network of services to support children exposed to violence and their families, build the capacity of communities to help children exposed to violence, and prevent/reduce juvenile violent crime.

**Category 2: Training and Technical Assistance**
- Develop technical assistance plans for each site within the first 4 months of the project. These plans should be developed in collaboration with the Planning Team.
• Provide targeted content training to project site staff to increase their capacity to implement strategies to address issues related to children exposed to violence and youth violence prevention and intervention.

• Establish tools and techniques for working across different disciplines to facilitate information sharing, communication, and coordination.

• Facilitate peer-to-peer information sharing and learning communities between the sites to promote problem solving and innovation through the exchange of information and ideas (i.e., monthly cohort calls).

• Plan and coordinate, in conjunction with OJJDP, annual cross-site meetings (onsite, if possible, or web-based) of project site grantees, including providing logistical support, developing meeting agendas, and identifying faculty and/or consultants. Develop and deliver general training activities focused on exposure to violence as well as youth violence prevention and intervention and building trust between youth, the community, and law enforcement.

• Collaborate with OJJDP and the training and technical assistance provider funded under the Comprehensive Youth Violence Prevention and Reduction Program solicitation in planning a targeted event (onsite, if possible, or web-based) focused on the nexus between children exposed to violence and youth violence prevention and intervention. This includes contributing to the development of the meeting agenda and identifying faculty and/or consultants.

The awardee will produce written synopses or summaries of all meetings, onsite visits, conference calls, and trainings, and provide other performance measures data as described below.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

**OJJDP Training and Technical Assistance Awardee Standards**

OJJDP has developed the Core Performance Standards for Training, Technical Assistance, and Evaluation to promote among providers the consistency and quality of OJJDP-sponsored training and technical assistance and to advance common expectations of performance excellence. The standards present minimum expectations that providers must meet for effective practice in the planning, coordination, delivery, and evaluation of training.

Requirements related to coordination of activities will include, but are not limited to:

- **Coordination with OJJDP NTTAC.** OJJDP requires all training and technical assistance projects to coordinate their activities with the OJJDP National Training and Technical Assistance Center (NTTAC) by complying with all OJJDP/NTTAC protocols to ensure coordinated delivery of services among providers and the effective use of OJJDP grant funding. OJJDP reserves the right to modify these protocols at any time with reasonable notice to the grantee prior to project completion.

- **OJJDP-funded webinars.** The award recipient must comply with OJJDP’s webinar guidelines, as described in the Core Performance Standards. Minimally, OJJDP training and technical assistance providers will submit information to OJJDP in advance of all events for the online calendar, record events, and provide the final files (which must be compliant with Section 508 of the Workforce Rehabilitation Act) to OJJDP or OJJDP’s representative. For more information on Section 508 of the Workforce Rehabilitation Act, visit [https://www.section508.gov](https://www.section508.gov).

- **Training information sharing.** OJP will collect information from its program offices on OJP-funded training and technical assistance events. Award recipients must use OJJDP’s standard electronic training request form, submit information to OJJDP on all training events (e.g., name of requester, description of request, dates of event) 30 days in advance of the event date, and report additional data, as OJJDP requires.

**Evidence-Based Programs or Practices**

OJP strongly emphasizes the use of data and evidence in policymakers and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](https://ojp.gov/programs/policies/guidelines/evidence-based-practices).

**Information Regarding Potential Evaluation of Programs and Activities**

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](https://ojp.gov/programs/policies/guidelines/evidence-based-practices) section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

**OJP Policy Priority Areas**

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department’s priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In FY 2021, under this program, OJP also will give priority to applicants proposing to implement Community Violence Intervention (CVI) strategies (i.e., community-based gun violence interventions such as street outreach, violence interrupters, group violence intervention, and hospital-based violence interventions). To receive priority consideration under the CVI priority, the applicant must provide a sufficient narrative explanation as an attachment, that describes one or more specific CVI strategies that will be implemented with funding and how they will be targeted to reduce violence.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at [https://www.census.gov/programs-surveys/acs](https://www.census.gov/programs-surveys/acs)).
Federal Award Information

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

The following sections must be included as part of the proposal narrative:

a. Description of the Issue

Applicants in both categories should briefly describe the nature and scope of the problem that the program will address (e.g., children exposed to violence, juvenile delinquency, crime prevention, etc.). The applicant should use data to provide evidence that the problem exists, demonstrate the size and scope of the problem, and document the effects of the problem on the target population and the larger community. Any data or research referenced in the narrative should include information about the source of the data and/or a citation. Applicants should describe the target population and any previous or current attempts to address the problem as well as identify current gaps in programming/services. Applicants should submit the timeline as a separate attachment, as stipulated in Additional Application Components. On receipt of an award, the recipient may revise the timeline, based on training and technical assistance that OJJDP will provide.

Management and staffing patterns should be clearly connected to the project design described in the previous section. Applicants should describe the roles and responsibilities of project staff and explain the program’s organizational structure and operations. Applicants should include a copy of an organizational chart showing how the organization operates, including who manages the finances; how the organization manages subawards, if there are any; and the management of the project proposed for funding.

Other Review Criteria/Factors

Other important considerations for OJJDP include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

• The application must be submitted by an eligible type of applicant.
• The application must request funding within programmatic funding constraints (if applicable).
• The application must be responsive to the scope of the solicitation.
• The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory
record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and OJJDP recommendations, but also other factors as indicated in this section.
