Program Description

Overview

This solicitation provides funding to develop intervention and supervision services for adolescent sex offenders and children with sexual behavior problems, and to provide treatment services for their victims and families/caregivers.

Statutory Authority

Any awards under this solicitation will be made under the statutory authority provided by a full-year Department of Justice appropriations act for FY 2021.

Specific Information

For the purposes of this solicitation, the term “children with sexual behavior problems” generally refers to those youth (age 12 and younger) who are in pre- or post-adjudication status for inappropriate sexual behavior with a family member; co-resident; or other nonfamily, peer-aged children (i.e., friends, neighbors, classmates). The proposed interventions for these children should also include support services for the victim and nonoffending family or household members.

For the purposes of this solicitation, the term “adolescent sex offenders” refers to those youth (ages 13 to 17) who are in pre- or post-adjudication status for serious sexual offenses committed against family members or other nonfamily, peer-aged children (i.e., friends, neighbors, classmates) or adults.

Goals, Objectives, Deliverables, and Timeline

Goals

The goal of this program is to prevent sexual reoffending by adolescent sex offenders and problematic sexual behavior in children.

Objectives

- Improve family and system response to incidents of adolescent sex offenses and problematic sexual behavior in children.
- Increase protective factors in targeted youth to prevent sexual reoffending or continued problematic sexual behavior.

Deliverables

- Develop or enhance intervention (including evidence-based treatment) and supervision services for adolescent sex offenders and/or children with sexual behavior problems.
- Develop or enhance treatment services for the child victims and nonoffending family members.
- Develop a comprehensive assessment of system resources that details the continuum of intervention services available for the target population (adolescent sex offenders and children with sexual behavior problems), and treatment services for their victims and family members/caregivers.
- Establish and/or maintain a multidisciplinary team that can respond to these cases to ensure offenders are held accountable within the legal system and treatment services are available for victims and offenders. Applicants able to demonstrate an existing partnership with multidisciplinary team member agencies in serving adolescent sex offenders and/or children with sexual behavior problems at the time of application will receive priority consideration and should include an attachment labeled “Multidisciplinary team partner list” as a part of their application. This list should reference the lead agency.

A key consideration for all program sites should be public safety balanced with prevention, early intervention, and treatment. Applicants must describe how they will ensure public safety (e.g., individualized supervision/safety plan) as a part of any proposed strategy to be funded.

OJJDP expects program sites to work closely with the currently funded training and technical assistance provider.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled "Information Regarding Potential Evaluation of Programs and Activities."

OJP Policy Priority Areas

In FY 2021, in addition to executing any program-specific prioritization that may be applicable, OJP will give priority consideration to applications as follows:

- Applications that address specific challenges that rural communities face.
- Applications that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.
- Applications that offer enhancements to public safety in economically distressed communities (Qualified Opportunity Zones (QOZs)).

OJP policy priority consideration will consist of receiving additional points in the application scoring process. Receipt of priority consideration does not guarantee that an application will be funded; nor will the failure to receive priority consideration necessarily mean that an application will not be funded.

To receive priority consideration under the rural priority, applicants must describe what makes the geographic service area rural (using U.S. Census or other appropriate government data; for assistance, applicants may refer to <https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural.html>), how isolated the area is from needed services, and how they will address specific challenges in rural communities.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties. For purposes of this priority consideration, the term "high-poverty area" means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>), and the term "persistent-poverty counties" means any county in which 20 percent or more of its population was living in poverty over the past 30 years as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

To receive priority consideration under the QOZs priority, applicants must include information that specifies how the project will enhance public safety in the specified QOZs. For resources on QOZs, and for a current list of designated QOZs, see the U.S. Department of the Treasury's resource webpage at <https://www.cdfifund.gov/pages/opportunity-zones.aspx>.

OJP policy priority consideration will consist of receiving additional points in the application scoring process. Receipt of priority consideration does not guarantee that an application will be funded; nor will the failure to receive priority consideration necessarily mean that an application will not be funded.

Standard Applicant Information (JustGrants 424 and General Agency Information)

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. Applicants will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, applicants will need to: add zip codes for areas affected by the project; confirm their Authorized Representative; and verify the organization's legal name and address.

Proposal Abstract

A proposal abstract (no more than 400 words) summarizing the proposed project including primary activities, products and deliverables, the service area, and who will benefit from the proposed project, will be completed in the JustGrants web-based form.

Proposal Narrative

The program narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 30 pages. Pages should be numbered and submitted as an attachment. If the program narrative fails to comply with these length restrictions, OJJDP may negatively consider such noncompliance in peer review and in final award decisions.

The following sections must be included as part of the program narrative:

a. Description of the Issue

Applicants should briefly describe the nature and scope of the problem that the program will address across the continuum of services provided (e.g., adolescent sex offenders, children with sexual behavior problems, victim services, training needs, etc.). The applicant should use data to provide evidence that the problem exists, demonstrate the size and scope of the problem, and document the effects of the problem on the target population and the larger community. Any data or research referenced in the narrative should include information about the source of the data and/or a citation. Applicants should describe the target population and any previous or current attempts to address the problem.

This section should also provide an overview of existing system resources to identify gaps in available resources, including but not limited to:

- List/description of the range of pre- and post-adjudication services currently available (**already funded**) for adolescent sex offenders and children with problematic sexual behaviors in the targeted community. This list of services should include both community-based and facility-based services, as well as any existing risk and needs assessment process used by the applicant to identify and evaluate recidivism and appropriate service recommendations for the target population of youth.
- List/description of services currently available (**already funded**) for victims and family members/caregivers.

Applicants should describe any research or evaluation studies that relate to the problem and contribute to their understanding of its causes and potential solutions. While OJJDP expects applicants to review the research literature for relevant studies, they should also explore whether unpublished local sources of research or evaluation data are available.

b. Project Design and Implementation

Applicants should detail how the project will operate throughout the funding period and describe the strategies that they will use to achieve the goals and objectives identified in the previous section. Applicants should describe how they will complete the deliverables stated in the Goals, Objectives, and Deliverables section. OJJDP encourages applicants to select evidence-based practices for their programs. This section should also include details regarding

any leveraged resources (cash or in-kind) from local sources to support the project and discuss plans for sustainability beyond the grant period. It is expected that applicants will use grant funding to fill gaps identified from the “description of the issue” section above.

Timeline. Applicants should submit a realistic timeline or milestone chart that indicates major tasks associated with the goals and objectives of the project, assigns responsibility for each, and plots completion of each task by month or quarter for the duration of the award, using “Year 1,” “Month 1,” “Quarter 1,” etc., not calendar dates (see “Sample Project Timelines” [here](#)). Applicants should submit the timeline as a separate attachment, as stipulated in Additional Application Components. On receipt of an award, the recipient may revise the timeline, based on training and technical assistance that OJJDP will provide.

c. Capabilities and Competencies

This section should describe the experience and capability of the applicant organization and any contractors or subgrantees that the applicant will use to implement and manage this effort and its associated federal funding, highlighting any previous experience implementing projects of similar design or magnitude. Applicants should highlight their experience/capability/capacity to manage subawards, including details on their system for fiscal accountability. Management and staffing patterns should be clearly connected to the project design described in the previous section. Applicants should describe the roles and responsibilities of project staff and explain the program’s organizational structure and operations. Applicants should include a copy of an organizational chart showing how the organization operates, including who manages the finances; how the organization manages subawards, if there are any; and the management of the project proposed for funding.

Letters of Support: If submitting a joint application, as described under Eligibility, applicants should provide signed and dated letters of support or memoranda of understanding for all key partners that include the following:

- Expression of support for the program and a statement of willingness to participate and collaborate with it.
- Description of the partner’s current role and responsibilities in the planning process and expected responsibilities when the program is operational.
- Estimate of the percentage of time that the partner will devote to the planning and operation of the project.

Letters of support may be addressed to the OJJDP Administrator. Applicants should combine all letters of support into one attachment and label it as “letters of support.” Only letters of support that are submitted by the due date and with the full application will be considered during the review process.

d. Plan for Collecting the Data Required for This Solicitation’s Performance Measures

Describe the process for measuring project performance. Identify who will collect the data, who is responsible for performance measurements, and how the information will be used to guide and evaluate the impact of the project. Describe the process that will be used to accurately report data.

Note: applicants are not required to submit performance data with the application. Rather, performance measures information is included as an alert that successful applicants will be required to submit performance data as part of the reporting requirements under an award.

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the goals, objectives, and deliverables identified under “Goals, Objectives, and Deliverables”.

A list of performance measure questions for this program can be found at <https://ojjdp.ojp.gov/funding/grant-performance-measurement/fy-2021-performance-measures>.

Applicants can also visit OJP’s performance measurement page at www.ojp.gov/performance for an overview of performance measurement activities at OJP.

Award recipients will be required to submit performance measurement data and performance reports in JustGrants. Further guidance on the post-award submission process will be provided, if selected for award.

5. Budget (5%) – evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

b. Additional Review Criteria

Other important considerations for OJJDP include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above related to addressing specific challenges that rural communities face, high-poverty areas or persistent-poverty counties, and demonstrable potential enhancement to public safety in one or more federally designated QOZs), evidence of a multidisciplinary team, available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (Web-based Form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet BMR.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be

made by the Assistant Attorney General, who may take into account not only peer review ratings and OJJDP recommendations, but also other factors as indicated in this section.
