

OJJDP ARRA Juvenile Mentoring Grant Program Program Performance Measures

ARRA Performance Measures

Output

During this reporting period, have you created, enhanced or maintained essential services using ARRA funds?

#	Output Measure	Definition	Reporting Format
1	Percent of essential services maintained without interruption.	An unduplicated count of the number of existing essential services that have been maintained with funding from the Recovery Act. Essential services are defined as services that are necessary to achieving the program mission. They are mission critical. Without funding from the Recovery Act, these essential services would have been lost (in part or in full).	<p>A. Number of essential services maintained because of Recovery Act funding.</p> <p>B. Total number of essential services provided.</p> <p>C. Auto-calculated: A/B Percent of essential services maintained because of funding from Recovery Act.</p>
2	Number of essential services created or enhanced with Recovery Act funding.	An unduplicated count of the number of essential services that have been created, or enhanced as a result of funding from Recovery Act.	<p>A. Number of new essential services funded by Recovery Act.</p> <p>B. Number of enhanced essential services funded by Recovery Act</p> <p>C. Total number of essential services provided</p> <p>D. Auto-calculate: A/C Percent of new essential services funded by Recovery Act.</p> <p>E. Auto-calculate: B/C Percent of enhanced essential services funded by Recovery Act.</p>

OJJDP Juvenile Mentoring Grant Program Program Performance Measures

Output Performance Measures

Bold indicates mandatory indicators.

#	Output Measure	Definition	Reporting Format
1	Number and percent of youth with whom an evidence-based practice was used		A. Number of youth served using an evidence-based model or program B. The number of youth served C. Percent A/B
2	Increase in Number of Program Mentors Recruited	Number of new mentors recruited during the reporting period. Recruited mentors are those that have completed requirements to be ready for training. Program records are the preferred data source.	A. The increase in number of program mentors recruited (ready for training) during the reporting period
3	Number and percent of program mentors successfully completing training (06/28/2010)	The number and percent of program mentors successfully completing training during the reporting period. Program records are the preferred data source.	A. Number of program mentors successfully completing training during the reporting period B. Number of program mentors trained during the reporting period C. Percent (A/B)
4	Number and percent of trained program mentors with increased knowledge of the program area	The number of trained program mentors demonstrating increased knowledge of the program during the reporting period. Program records are the preferred data source.	A. Number of trained program mentors demonstrating increased knowledge of the program during the reporting period B. Number of trained program mentors C. Percent (A/B)
5	Mentor Retention	The number of program mentors retained by the program within the reporting period. Program records are the preferred data source.	A. The number of mentors who have left the program during the reporting period B. The total number of mentors in the program during the reporting period C. $(B - A)/B = \text{Mentor Retention Rate}$
6	Increase in youth enrolled since the beginning of the grant program	Increase in the number of youth enrolled (being mentored) since the beginning of the grant program.	A. Number of youth enrolled at the beginning of the reporting period B. Number of NEW youth added during the reporting period

OJJDP Juvenile Mentoring Grant Program Program Performance Measures

Outcome Performance Measures

Bold indicates mandatory indicators.

#	Outcome Measure	Definition	Reporting Format	Reporting Term
1	Percent of Mentoring Programs with Active Partners	Percent of mentoring programs with active partners representing the following types of groups: non-profit service organizations and / or faith based organizations; private industry; secondary education provider; and post-secondary education provider or vocational training provider; other active partners.	A. Number of mentoring programs with active partners B. Number of mentoring programs C. Percent (A/B)	
2	Number of program youth served		A. Number of program youth carried over from the previous reporting period, plus new admissions during the reporting period	
3	Number and percent of program youth completing program requirements	The number and percent of program youth who have successfully fulfilled all program obligations and requirements. Program obligations will vary by program, but should be a predefined list of requirements or obligations that clients must meet prior to program completion. Program records are the preferred data source. The total number of youth include those who exited successfully or unsuccessfully.	A. Number of program youth who exited the program having completed program requirements B. Total number of youth who exited the program during the reporting period (both successfully and unsuccessfully) C. Percent (A/B)	Short

#	Outcome Measure	Definition	Reporting Format	Reporting Term
4	<p>Number and percent of program youth who offend during the reporting period 11/12/2010</p>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth that are followed or monitored for arrests or offenses. <i>Ideally this number should be all youth served by the program during this reporting period.</i></p> <p>Ex. If I am serving 100 youth in my program, A would be 100. If I am following up with 50 of them, B would be 50. Of these 50 program youth I'm tracking, if 25 of them were arrested or had a delinquent offense during this reporting period, then C would be 25.</p>	<p>A. Total number of program youth served</p> <p>B. Number of program youth tracked during this reporting period</p> <p>C. Of B, number of program youth who had an arrest or delinquent offense during this reporting period</p> <p>D. Number of program youth who were recommitted to a juvenile facility during this reporting period</p> <p>E. Number of program youth who were sentenced to adult prison during this reporting period</p> <p>F. Number of youth who received another sentence during this reporting period</p> <p>G. Percent offending (C/B)</p>	Short

#	Outcome Measure	Definition	Reporting Format	Reporting Term
4	<p>Number and percent of program youth who offend during the reporting period 11/12/2010</p>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth that are followed or monitored for arrests or offenses 6-12 months after exiting the program.</p> <p>Ex. I have a lot of youth who exited my program 6-12 months ago, but we are only tracking 100 of them, so A is 100. Of these 100 program youth that exited the program 6-12 months ago 65 had a new arrest or delinquent offense during this reporting period, so B is 65.</p>	<p>A. Number of program youth who exited the program 6-12 months ago that you are tracking</p> <p>B. Of A, the number of program youth who had an arrest or delinquent offense during this reporting period</p> <p>C. Number of program youth who were recommitted to a juvenile facility during this reporting period</p> <p>D. Number of program youth who were sentenced to adult prison during this reporting period</p> <p>E. Number of youth who received another sentence during this reporting period</p> <p>F. Percent of Long Term offending (B/A)</p>	Long

#	Outcome Measure	Definition	Reporting Format	Reporting Term
4A	Number and percent of program youth who re-offend during the reporting period 11/12/2010	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a new delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth that are followed or monitored for new arrests or offenses. <i>Ideally this number should be all youth served by the program during this reporting period.</i></p> <p>Ex. Percent of Long Term recidivism (B/A)</p>	Long
4	Number or percentage of youth who are victimized 11/12/2010	<p>The number and percent of youth who were victimized. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p>	<p>A. Total number of program youth served</p> <p>B. Number of program youth tracked during this reporting period for victimization</p> <p>C. Of B, the number of program youth who were victimized</p> <p>D. D. Percent victimized (C/B)</p>	Short

#	Outcome Measure	Definition	Reporting Format	Reporting Term
4	Number or percentage of youth who are victimized 11/12/2010	The number and percent of youth who were revictimized. Appropriate for any youth-serving program.	<p>A. Number of program youth who exited the program 6-12 months ago that you are tracking for victimization</p> <p>B. Of A, the number of program youth who were victimized during this reporting period</p> <p>C. Percent of Long Term victimization (B/A)</p>	Long
4	Number or percentage of youth who are re-victimized 11/12/2010	The number and percent of youth who were revictimized. Appropriate for any youth-serving program.	<p>A. Total number of program youth served</p> <p>B. Number of program youth tracked during this reporting period for victimization</p> <p>C. Of B, the number of program youth who were re-victimized</p> <p>D. Percent re-victimization (C/B)</p>	Short
4	Number or percentage of youth who are re-victimized 11/12/2010	The number and percent of youth who were revictimized. Appropriate for any youth-serving program.	<p>A. Number of program youth who exited the program 6-12 months ago that you are tracking for victimization</p> <p>B. Of A, the number of program youth who were re-victimized during this reporting period</p> <p>C. Percent of Long Term re-victimization (B/A)</p>	Long

#	Outcome Measure	Definition	Reporting Format	Reporting Term
5	Antisocial behavior	The number and percent of youth who have exhibited a decrease in antisocial behavior during the reporting period. Self-report or staff ratings are the preferred data source. Anti-social behavior: A pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, consistent irresponsibility, lack of remorse, failure to conform to social norms).	A. Number of program youth with the noted behavioral change during the reporting period B. Number of youth in the program who received services for this behavior C. A/B	Short
5A	Antisocial behavior	Number and percent of program youth who exhibited a decrease in antisocial behavior 6 months to 1 year after exiting the program. Anti-social behavior: A pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, consistent irresponsibility, lack of remorse, failure to conform to social norms).	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long
5b	Family relationships	Number and percent of program youth who exhibited an improvement in family relationships during the reporting period. Self-report, staff rating are most likely data sources.	A. Number of program youth with the noted behavioral change during the reporting period B. Number of youth in the program who received services for this behavior C. A/B	Short
5b	Family relationships	Number and percent of program youth who exhibited an improvement in family relationships 6 months to 1 year after exiting the program.	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long
5c	Social competence	The number of youth who have exhibited an improvement in social competence. Social competence is defined as the ability to achieve personal goals in social interaction while maintaining positive relationships with others over time and across situations. Self-report or staff ratings are the preferred data sources.	A. Number of program youth with the noted behavioral change B. Number of youth in the program who received services for this behavior C. A/B	Short

#	Outcome Measure	Definition	Reporting Format	Reporting Term
5c	Social competence	Number and percent of program youth who exhibited an improvement in social competencies 6 months to 1 year after exiting the program.	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long
5d	Gang Resistance Involvement	The number and percent of program youth who have exhibited a desired change in gang resistance behavior during the reporting period. Self-reported or staff ratings are the most likely data sources.	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth in the program who received services for this behavior C. Percent (A/B)	Short
5d	Gang Resistance Involvement	Number and percent of program youth who have exhibited a desired change in gang resistance behavior 6 months after exiting the program. Self-reported or staff ratings are the most likely data sources.	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long
5e	Substance use	The number and percent of program youth who have exhibited a decrease in substance use during the reporting period. Self-report or staff rating are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	Short
5e	Substance use	Number and percent of program youth who exhibited a decrease in substance use 6 months to 1 year after exiting the program.	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long

#	Outcome Measure	Definition	Reporting Format	Reporting Term
5f	School attendance	The number of program youth who have exhibited an increase in school attendance during the reporting period. Self-report or staff rating are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	Short
5f	School attendance	Number and percent of program youth who exhibited an increase in school attendance 6 months to 1 year after exiting the program.	A. Total number of youth who exited the program 6-12 months ago who had the noted behavioral change. B. Total number of youth who, during this reporting period, exited the program 6-12 months earlier. C. Percent (A/B)	Long
5g	GED	Number and percent of program youth who earned a GED (through the program) during the reporting period. Self-report or staff rating are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	Short
5g	GED	Number and percent of program youth who earned a GED (through the program) 6 months to 1 year after exiting the program.	A. Number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long
5h	GPA	Number and percent of program youth who exhibited an increase in GPA during the reporting period. Self-report or staff rating are most likely data sources.	A. Number of program youth participating in the program who have exhibited indicated change in behavior B. Number of youth in the program who received services for this behavior C. A/B	Short

#	Outcome Measure	Definition	Reporting Format	Reporting Term
5h	GPA	Number and percent of program youth who exhibited an increase in GPA 6 months to 1 year after exiting the program.	A. Number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who, during this reporting period, exited the program 6-12 months earlier. C. Percent (A/B)	Long
5l	Perception of social support	The number and percent of program youth who have exhibited an improvement in the perception of social support during the reporting period. Self-report or staff rating are most likely data sources.	A. Number of program youth served during the program period with the noted behavioral change B. Number of youth in the program who received services for this behavior. C. Percent (A/B)	Short
5l	Perception of social support	Number and percent of program youth who exhibited an improvement in the perception of social support 6 months to 1 year after exiting the program.	A. Number of youth who exited the program 6-12 months ago who had the noted behavioral change B. Number of youth who exited the program 6-12 months earlier and received services for this behavior C. Percent (A/B)	Long
