#	Output Measure	Definition	Data Grantee Provides	Record Data Here
1	Number and percent of staff trained in accountability programming	Determine system accountability based on the idea that for the process to be useful, staff must be trained to use it. Appropriate for most grantees under this purpose area. Report the raw number of staff that have received any amount of formal training about accountability programming (include both general information and agency specific information). Training can be in any format or medium as long as its receipt can be verified. Training can be from any source as long as it was at least facilitated by the JABG/Tribal JADG funds. Percent is the raw number divided by the total number of grantee staff.	A. Number of staff trained B. Number of staff C. Percent (a/b)	
2	Number of hours of training about accountability programming offered	Determine system accountability based on the idea that for the process to be useful, staff must be trained to use it. Appropriate for most grantees under this purpose area. Report the raw number of hours of training provided. Training can be in any format or medium as long as it can be verified that staff were aware of the training and were able to avail themselves of it (e.g., it was not cost prohibitive or offered at a time that conflicted with other necessary duties). Training can be from any source as long as it was at least facilitated by the JABG/Tribal JADG funds.	A. Number of hours of training offered	
3	Number of accountability programs in operation	Measure of program implementation. Appropriate for grantees that have accountability programs in operation. Report the number of different accountability programs that are operational (e.g., serving clients). Include programs that are partially and fully operational. Different programs would be those, for example, that offer different services, serve different populations, have different procedures or criteria for inclusion or operation, or are run by different people/agencies/organizations.	A. Number of accountability programs operating	
4	Number and percent of justice agencies providing accountability programming	Measure of system accountability. Appropriate for grantees that encompass multiple justice agencies. For example, a county justice system, a county government, or a service provider that works throughout the entire justice system. Report the raw number of different justice agencies that have at least one operational accountability program. Percent is the raw number divided by the total number of justice agencies in the local area (e.g., if the grantee is a county, the divisor would be the total number of justice agencies in the county).	A. Number of agencies with an operational accountability program B. Number of justice agencies C. Percent (a/b)	
5	Number of accountability program slots	Determine program scope. Appropriate for programs that offer accountability programming. Report the raw number of accountability programming slots that the program has at any one time. Include both services directly delivered by the program and services that youth have access to through the program. For example, if a program can process victim impact statements for 5 juvenile offenders and serve 25 youth through a victim empathy class, the number of slots would be 30.	A. Number of accountability program slots	
6	Number of people trained during the reporting period	This measure represents the number of people trained during the reporting period. The number is the raw number of people receiving any formal training relevant to the program or their position as program staff. Include any training from any source or medium received during the reporting period as long as receipt of training can be verified. Training does not have to have been completed during the reporting period. Preferred data source is program records.	A. Number of people trained

7	Number of training requests RECEIVED	This measure represents the number of training requests received during the reporting period. Requests can come from individuals or organizations served.	A. Number of training requests received during the reporting period.	
8	Number of technical assistance requests RECEIVED	This measure represents the number of technical assistance requests received during the reporting period. Requests can come from individuals or organizations served.	A. Number of technical assistance requests received during the reporting period	
9	Number of program materials developed during the reporting period	This measure represents the number of program materials that were developed during the reporting period. Include only substantive materials such as program overviews, client workbooks, lists of local service providers. Do not include program advertisements or administrative forms such as sign-in sheets or client tracking forms. Count the number of pieces developed. Program records are the preferred data source	A. Number of program materials developed	
10	Number of planning or training events held during the reporting period	This measure represents the number of planning or training activities held during the reporting period. Planning and training activities include creation of task forces or inter-agency committees, meetings held, needs assessments undertaken, etc. Preferred data source is program records.	A. Number of planning or training activities held during the reporting period	
11	Percent of those served by training and technical assistance (TTA) who reported implementing an evidence based program and/or practice during or after the TTA.	Number and percent of programs served by TTA that reported implementing an evidence-based program / and or practice during or after the TTA. Evidence based programs and practices include program models that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse.	A. Number of programs served by TTA that reported using an evidence-based program and / or practice. B. Number of programs served by TTA C. Percent of programs served by TTA that report using an evidence-based program and / or practice (A/B)	
12	Percent of people exhibiting an increased knowledge of the program area during the reporting period	This measure represents the number of people who exhibit an increased knowledge of the program area after participating in training. Use of pre and posttests is preferred.	A. Number of people exhibiting an increase in knowledge post-training. B. Number of people trained during the reporting period. C. Percent of people trained who exhibited increased knowledge (A/B)	
13	Number of program policies changed, improved, or rescinded during the reporting period	This measure represents the number of cross-program or agency policies or procedures changed, improved, or rescinded during the reporting period. A policy is a plan or specific course of action that guides the general goals and directives of programs and/or agencies. Include polices that are relevant to the topic area of the program or that affect program operations. Preferred data source is program records.	A. Number of programs policies changed during the reporting period B. Number of programs policies rescinded during the reporting period	
14	Percent of organizations reporting improvements in operations based on training and technical assistance (TTA).	The number and percent of organizations reporting improvements in operations as a result of TTA one to six months post-service.	A. The number of organizations reporting improvements in operations as a result of TTA one to six months post-service B. The total number of organizations served by TTA during the reporting period C. Percent of organizations reporting improvements (A/B)

#	Outcome Measure	Definition	Data Grantee Provides	Record Data Here
15	Number of supervision meetings per youth per month (short term)	Measure of program quality. Appropriate for grantees with operational accountability programs. Report the average number of times participating youth met with a representative of the justice system in the preceding month. Depending on the program, it may be youths' probation or parole officer, a specialty court judge, or the staff at the detention or day reporting center that monitors youths' progress towards fulfilling their justice requirements.	A. Average number of supervision meetings per youth per month	
16	Time in days from offender intake into the accountability program to receipt of a sanctions schedule (short term)	Measure of system accountability. Appropriate for grantees with operational accountability programs. Report the average number of calendar days from youth intake in the accountability program to their receiving a sanctions schedule. Intake can include things like signing a participation agreement or assignment of a program case specialist.	A. Average number of calendar days from enrollment to receipt of a sanctions schedule	
17	Number and percent of youth with a behavioral contract developed at their intake into the accountability program (short term)	Determine whether graduated sanctions are being used as intended with the development of behavioral contract at youth intake. This measures system accountability. Appropriate for all programs implementing graduated sanctions. Report raw number of youth in graduated sanctions programs that had a behavioral contract developed when they entered the program. Percent is calculated by dividing the number of youth with a contract developed at intake by the total number of youth to enter the accountability program.	A. Number of youth with a behavioral contract at intake B. Number of youth to enter the program C. Percent (a/b)	
18	Average time in hours from infraction to sanction (intermediate term)	Measure of system accountability. Appropriate for grantees with operational accountability programs. Report the average number of hours from when a youth does something that violates the behavioral contract, the program rules, school behavior rules or guidelines to that youth receiving a sanction. Include only closed cases (i.e., those in which a sanction has been administered or the case dismissed).	A. Average number of hours from infraction to sanction	
19	Number and percent of sanctions that are successfully contested by youth or their families (intermediate term)	Measure of program accountability based on the idea that procedures for contesting sanctions are a vital part of accountability programming. Appropriate for grantees with operational accountability programs. Report the raw number of sanctions that are overturned, reversed, or revised. Percent is the raw number divided by the total number of sanctions enacted.	A. Number of sanctions successfully contested B. Number of sanctions imposed C. Percent (a/b)	
20	Number and percent of youth referrals across departments, organizations, agencies or units (intermediate term)	Measure of system collaboration. Appropriate for grantees that work with other agencies to provide client services. Report the raw number of client referrals (to or from the grantee) that involve other departments, organizations, agencies, or units). Percent is the raw number divided by the total number of client referrals.	A. Number of cross-agency client referrals B. Number of client referrals C. Percent (a/b)

#	Outcome Measure	Definition	Data Grantee Provides	Record Data Here
21	Number and percent of eligible youth entering an accountability program (intermediate term)	Measure of system accountability based on the idea that the system should meet the identified need for service. Appropriate for grantees that oversee youth, such as court systems or probation departments. Report the raw number of youth enrolled in accountability programs during any part of the reporting period. Percent is the raw number divided by the total number of youth processed by the grantee during any part of the reporting period that met the criteria for inclusion into an accountability program (e.g., they were not arrested for an excluded crime).	A. Number of youth in accountability programs B. Number of youth processed by grantee C. Percent (a/b)	
22	Number and percent of youth to receive aftercare services (intermediate term)	Measure of system accountability. Appropriate for operational accountability programs or grantees that oversee youth (e.g., case managers, probation, or parole officer) who participate in accountability programming. Report the raw number of youth to receive aftercare programming as part of the accountability program. Percent is the raw number divided by the total number of youth to participate in an accountability program.	A. Number of youth to receive aftercare B. Number of youth to participate in an accountability program C. Percent (a/b)	
23	Average percent of days youth received treatment/services (intermediate term)	Measure of system accountability and program implementation. Appropriate for grantees with operational accountability programs. Report the average number of calendar days that youth receive an accountability program treatment or service divided by the total number of days they were enrolled in the program. Include clinical, non-clinical, and supervision treatment services.	A. Average number of days youth receive a service B. Average number of days youth are enrolled in accountability programming C. Percent (a/b)	
24	Number and percent of youth assigned to alternatives to detention (intermediate term)	Measure of system accountability based on the idea that youth should not be placed in detention unnecessarily. Appropriate for grantees with operational accountability programs. Report the raw number of program youth who were assigned to an alternative to detention that, without the program, would have been assigned to detention. Percent is the raw number divided by the raw number plus the number of youth assigned to detention.	A. Number of youth assigned to alternatives to detention B. Number of youth to receive detention C. Percent (a/(a+b))	
25	Average number of days of program participation per youth (intermediate term)	Measure of program scope. Appropriate for grantees with operational accountability programs. Report the average number of calendar days youth participate in the program (i.e., from intake to completion). Include both clients who complete successfully and those who do not.	A. Average number of days youth are enrolled in the program
