

# Fiscal Year 2020 Juvenile Justice and Mental Health Collaboration Program Performance Measures

The following pages outline performance measures for the **Fiscal Year 2020 Juvenile Justice and Mental Health Collaboration Program (JMHC)** and lists the data that grantees must report on to complete a Performance Data Report. The Office of Juvenile Justice and Delinquency Prevention (OJJDP) requires grantees to provide data for the performance measure in the column labeled “Data Grantee Reports.” Grantees enter their data in the Performance Measurement Tool (PMT), the OJJDP online system. The PMT automatically calculates simple statistics from the data entered, such as percentages and total amounts.

Grantees enter data in January and July of each calendar year and are responsible for creating their Performance Data Report. Grantees submit this report to OJJDP through the Grants Management System (GMS).

OJJDP groups performance measures for grantees performing similar grant-related activities, for example those who serve similar populations or who receive funding under the same program in the PMT under a shared program area. Grantees for this solicitation report their data under the Discretionary 2.0 Grant programs, “direct service prevention”, “direct service intervention”, and “system improvement” subcategories. A full list of performance measures available in the Discretionary 2.0 Grant programs can be found at [ojjdpmt.ojp.gov/help/Grids/PDF/DiscretionaryGrid2.0\\_508.pdf](http://ojjdpmt.ojp.gov/help/Grids/PDF/DiscretionaryGrid2.0_508.pdf).

If you have questions about the PMT or performance measures, please call the **OJJDP PMT Helpdesk at 866-487-0512** or send an e-mail to: [OJJDPMT@ojp.usdoj.gov](mailto:OJJDPMT@ojp.usdoj.gov).

Performance Measure	Definition	Data Grantee Reports	Record Data Here
<b>PC 1: DIRECT SERVICE PREVENTION</b>			
Number of program youth served	An unduplicated count of the number of youth served by the program during the reporting period. Definition of the number of youth served for a reporting period is the number of program youth carried over from the previous reporting period, plus new admissions during the reporting period.  Program records are the preferred data source.	A. Number of program youth carried over from the previous reporting period B. New admissions during the reporting period C. Sum (A+B)	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Number and percent of programs/initiatives employing evidence-based programs or practices</p>	<p>Report the number and percent of programs/initiatives employing evidence-based programs or practices. These include programs and practices that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, CrimeSolutions.gov, OJJDP’s Model Programs Guide, SAMHSA’s Model Programs, etc.).</p>	<p>A. Number of program/initiatives employing evidence-based programs or practices B. Total number of programs/initiatives C. Percent (A/B)</p>	
<p>Number and percent of youth with whom an evidence-based program or practice was used</p>	<p>The number and percent of youth served with an evidence-based program or practice. These include programs and practices that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, CrimeSolutions.gov, OJJDP’s Model Programs Guide, SAMHSA’s Model Programs, etc.).</p>	<p>A. The number of youth served using an evidence-based program or practice B. Total number of youth served during the reporting period C. Percent (A/B)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Number of program staff who have completed training in program area</p>	<p>The number and percent of program staff who have received formal training related to direct service prevention during the reporting period. Examples include, but are not limited to, service delivery, training to prevent and respond to juvenile delinquency and victimization; training that addresses the needs of juvenile justice practitioners; training for state and local efforts to build capacity; and training to expand the use of evidence-based practices. Program records are the preferred data source.</p>	<p>A. Number of program staff who have completed training or a formal learning opportunity during the reporting period B. Number of program staff enrolled in the training or formal learning opportunity during the reporting period C. Percent (A/B)</p>	
<p>Number and percent of program staff with increased knowledge of program area</p>	<p>This measure represents the number of program staff who exhibit an increased knowledge of the program area after participating in training. Use of pre- and posttests is preferred.</p>	<p>A. Number of program staff trained during the reporting period who report increased knowledge B. Number of program staff trained during the reporting period and returning surveys C. Percent (A/B)</p>	
<p>Number and percent of program youth completing program requirements</p>	<p>The number and percent of program youth who have successfully fulfilled all program obligations and requirements. This does not include youth who are still in ongoing programs. Program obligations will vary by program, but they should be a predefined list of requirements or obligations that youth must meet before program completion, such as attendance and participation at a certain number of meetings or events.</p>	<p>A. Number of program youth who exited the program having completed program requirements B. Total number of youth who exited the program during the reporting period (either successfully or unsuccessfully) C. Percent (A/B)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>The total number of youth (the B value) includes those youth who have exited successfully as well as those who have exited unsuccessfully. Program records are the preferred data source.</p>		
<p>Number and percent of families completing program requirements</p>	<p>The number and percent of families (families may include parents, guardians, siblings, extended guardians, and anyone a youth identifies as a family member) who have successfully fulfilled all program obligations and requirements during the reporting period. This does not include families who are still in ongoing programs. Program obligations will vary by program but should be a predefined list of requirements or obligations that clients must meet before program completion. The total number of families includes those who have exited successfully as well as those who have exited unsuccessfully. Program records are the preferred data source.</p>	<p>A. Number of families who exited the program having completed program requirements B. Total number of families who exited the program during the reporting period (either successfully or unsuccessfully) C. Percent (A/B)</p>	
<p>School attendance (Short Term)</p>	<p>The number and percent of program youth who have exhibited a desired change in school attendance during the reporting period. Self-report or official records are the most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for the target behavior during the reporting period C. Percent (A/B)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>School attendance (Long Term)</p>	<p>The number and percent of program youth who exhibited a desired change in school attendance 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or official records are the most likely data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)</p>	
<p>GED (Short Term)</p>	<p>Number and percent of program youth who earned a GED (through the program) during the reporting period.  Self-report or staff ratings are most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth in the program receiving services for target behavior during the reporting period C. Percent (A/B)</p>	
<p>GED (Long Term)</p>	<p>The number and percent of program youth who earned a GED (through the program) 6–12 months after exiting the program.  The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are most likely data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)</p>	
<p>High school completion (Short Term)</p>	<p>The number of youth who have completed high school during the reporting period.  Program records are the preferred data source.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

		<p>B. Total number of youth in the program receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
High school completion (Long Term)	<p>The number of youth who have completed high school 6–12 months after exiting the program.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p> <p>Program records are the preferred data source.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	
Job skills (Short Term)	<p>Number and percent of program youth who exhibited an increase in job skills during the reporting period.</p> <p>Self-report or staff rating is most likely data source.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p> <p>B. Total number of youth receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
Job skills (Long Term)	<p>The number and percent of program youth who exhibited an increase in job skills 6–12 months after exiting the program.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p> <p>Self-report or staff rating is the most likely data source.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Employment status (Short Term)</p>	<p>The number of program youth who have exhibited an improvement in employment status during the reporting period.</p> <p>Self-report or staff ratings are most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B)</p>	
<p>Employment status (Long Term)</p>	<p>The number and percent of program youth who exhibited an improvement in employment status 6–12 months after exiting the program.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p> <p>Self-report or staff rating is the most likely data source.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)</p>	
<p>Family relationships (Short Term)</p>	<p>The number and percent of program youth who have exhibited a desired change in family relationships during the reporting period. Such changes are positive ones that could be related to increased positive interaction with family members. Examples are improved communication and increased emotional and practical support.</p> <p>Self-report or staff ratings are the most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Family relationships (Long Term)</p>	<p>The number and percent of program youth who have exhibited a desired change in family relationships 6–12 months after exiting the program. Such changes are positive ones that could be related to increased positive interaction with family members. Examples are improved communication and increased emotional and practical support.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p> <p>Self-report or staff ratings are the most likely data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	
<p>Family functioning (Short Term)</p>	<p>The number of program youth, or youth and families, who have exhibited an improvement in family functioning.</p> <p>Self-report or staff ratings are the preferred data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p> <p>B. Total number of youth receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
<p>Family functioning (Long Term)</p>	<p>The number of program youth, or youth and families, who have exhibited an improvement in family functioning 6–12 months after exiting the program.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	Self-report or staff ratings are the preferred data sources.		
Antisocial behavior (Short Term)	<p>The number and percent of program youth who have exhibited a desired change in antisocial behavior during the reporting period. Antisocial behavior is defined as a pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, fighting, disruptive behavior, consistent irresponsibility, lack of remorse, or failure to conform to social norms).</p> <p>Self-report or staff ratings are the most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p> <p>B. Total number of youth receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
Antisocial behavior (Long Term)	<p>The number and percent of program youth who exhibited a desired change in antisocial behavior 6–12 months after exiting the program. Antisocial behavior is defined as a pervasive pattern of behavior that displays disregard for and violation of the rights of others, societal mores, or the law (such as deceitfulness, irritability, fighting, disruptive behavior, consistent irresponsibility, lack of remorse, or failure to conform to social norms).</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p> <p>Self-report or staff ratings are the most likely data sources.</p>		
Substance use (Short Term)	<p>The number and percent of program youth who have exhibited a decrease in substance use during the reporting period.</p> <p>Self-report or staff ratings are most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p> <p>B. Total number of youth receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
Substance use (Long Term)	<p>The number and percent of program youth who exhibited a decrease in substance use 6–12 months after exiting the program.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements.</p> <p>Self-report, staff rating, or urinalysis are the most likely data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	
Number and percent of program youth who offend (Short Term)	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p>	<p>A. Total number of program youth served during the reporting period</p> <p>B. Number of program youth tracked during the reporting period</p> <p>C. Of B, the number of program youth who had an arrest or delinquent offense during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses. Ideally, this number should be all youth served by the program during this reporting period.</p> <p>A youth may be “committed” to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as “sentences.”</p> <p>Other sentences may be community-based sanctions, such as community service, probation, etc.</p> <p>Example: If I am tracking 50 program youth, then B would be 50. Of these 50 program youth I am tracking, if 25 were arrested or had a delinquent offense during the reporting period, then C would be 25. This logic should follow for D, E, and F values. The percent of youth offending who are measured short term will be auto calculated in G.</p>	<p>D. Number of program youth who were committed to a juvenile facility during the reporting period</p> <p>E. Number of program youth who were sentenced to adult prison during the reporting period</p> <p>F. Number of youth who received another sentence during the reporting period</p> <p>G. Percent offending (C/B)</p>	
<p>Number and percent of program youth who offend (Long Term)</p>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p>	<p>A. Total number of program youth tracked during the reporting period who exited the program 6–12 months ago</p> <p>B. Of A, the number of program youth who had an arrest or delinquent offense during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses 6–12 months after completing program requirements.</p> <p>A youth may be “committed” to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as “sentences.”</p> <p>Other sentences may be community-based sanctions, such as community service, probation, etc.</p> <p>Example: A grantee may have several youth who exited the program 6–12 months ago; however, they are tracking only 100 of them. Therefore, the A value will be 100. Of these 100 program youth who exited the program 6–12 months ago, 65 had an arrest or delinquent offense during the reporting period; therefore, the B value should be recorded as 65. This logic should follow for C, D, and E values. The percent of youth offending who are measured long term will be auto calculated in F.</p>	<p>C. Number of program youth who were committed to a juvenile facility during the reporting period</p> <p>D. Number of program youth who were sentenced to adult prison during the reporting period</p> <p>E. Number of youth who received another sentence during the reporting period</p> <p>F. Percent offending (B/A)</p>

	Program records are the preferred data source.		
Number and percent of programs/initiatives employing evidence-based programs or practices	Report the number and percent of programs/initiatives employing evidence-based programs or practices. These include programs and practices that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, CrimeSolutions.gov, OJJDP’s Model Programs Guide, SAMHSA’s Model Programs, etc.).	<ul style="list-style-type: none"> <li>A. Number of program/initiatives employing evidence-based programs or practices</li> <li>B. Total number of programs/initiatives</li> <li>C. Percent (A/B)</li> </ul>	
Number and percent of youth with whom an evidence-based program or practice was used	The number and percent of youth served with an evidence-based program or practice. These include programs and practices that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, CrimeSolutions.gov, OJJDP’s Model Programs Guide, SAMHSA’s Model Programs, etc.).	<ul style="list-style-type: none"> <li>A. The number of youth served using an evidence-based program or practice</li> <li>B. Total number of youth served during the reporting period</li> <li>C. Percent (A/B)</li> </ul>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Number of program staff who have completed training in program area</p>	<p>The number and percent of program staff who have received formal training related to direct service intervention during the reporting period. Examples include, but are not limited to, service delivery, training to prevent and respond to juvenile delinquency and victimization; training that addresses the needs of juvenile justice practitioners; training for state and local efforts to build capacity; and training to expand the use of evidence-based practices.</p> <p>Program records are the preferred data source.</p>	<p>A. Number of program staff who have completed training or a formal learning opportunity during the reporting period B. Number of program staff enrolled in the training or formal learning opportunity during the reporting period C. Percent (A/B)</p>	
<p>Number and percent of program staff with increased knowledge of program area</p>	<p>This measure represents the number of program staff who exhibit an increased knowledge of the program area after participating in training. Use of pre- and posttests is preferred.</p>	<p>A. Number of program staff trained during the reporting period who report increased knowledge B. Number of program staff trained during the reporting period and returning surveys C. Percent (A/B)</p>	
<p>Number and percent of program youth completing program requirements</p>	<p>The number and percent of program youth who have successfully fulfilled all program obligations and requirements. This does not include youth who are still in ongoing programs. Program obligations will vary by program, but they should be a predefined list of requirements or obligations that youth must meet before program completion, such as attendance and participation at a certain number of meetings or events.</p>	<p>A. Number of program youth who exited the program having completed program requirements B. Total number of youth who exited the program during the reporting period (either successfully or unsuccessfully) C. Percent (A/B)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>The total number of youth (the B value) includes those youth who have exited successfully as well as those who have exited unsuccessfully.</p> <p>Program records are the preferred data source.</p>		
Number and percent of families completing program requirements	<p>The number and percent of families (families may include parents, guardians, siblings, extended guardians, and anyone a youth identifies as a family member) who have successfully fulfilled all program obligations and requirements during the reporting period.</p> <p>This does not include families who are still in ongoing programs. Program obligations will vary by program but should be a predefined list of requirements or obligations that clients must meet before program completion.</p> <p>The total number of families includes those who have exited successfully as well as those who have exited unsuccessfully.</p> <p>Program records are the preferred data source.</p>	<p>A. Number of families who exited the program having completed program requirements</p> <p>B. Total number of families who exited the program during the reporting period (either successfully or unsuccessfully)</p> <p>C. Percent (A/B)</p>	
School attendance (Short Term)	<p>The number and percent of program youth who have exhibited a desired change in school attendance during the reporting period. Self-report or official records are the most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p> <p>B. Total number of youth receiving services for the target behavior during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

		C. Percent (A/B)	
School attendance (Long Term)	The number and percent of program youth who exhibited a desired change in school attendance 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or official records are the most likely data sources.	A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)	
GED (Short Term)	Number and percent of program youth who earned a GED (through the program) during the reporting period. Self-report or staff ratings are most likely data sources.	A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth in the program receiving services for target behavior during the reporting period C. Percent (A/B)	
GED (Long Term)	The number and percent of program youth who earned a GED (through the program) 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are most likely data sources.	A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)	
High school completion (Short Term)	The number of youth who have completed high school during the reporting period. Program records are the preferred data source.	A. Number of program youth served during the reporting period with the noted behavioral change	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

		<p>B. Total number of youth in the program receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
High school completion (Long Term)	<p>The number of youth who have completed High School 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Program records are the preferred data source.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	
Job skills (Short Term)	<p>Number and percent of program youth who exhibited an increase in job skills during the reporting period. Self-report or staff rating is most likely data source.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p> <p>B. Total number of youth receiving services for target behavior during the reporting period</p> <p>C. Percent (A/B)</p>	
Job skills (Long Term)	<p>The number and percent of program youth who exhibited an increase in job skills 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff rating is the most likely data source.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period</p> <p>B. Of A, the number of program youth with the noted behavioral change during the reporting period</p> <p>C. Percent (B/A)</p>	
Employment status (Short Term)	<p>The number of program youth who have exhibited an improvement in employment status during the reporting period.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	Self-report or staff ratings are most likely data sources.	B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B)	
Employment status (Long Term)	The number and percent of program youth who exhibited an improvement in employment status 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff rating is the most likely data source.	A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)	
Family relationships (Short Term)	The number and percent of program youth who have exhibited a desired change in family relationships during the reporting period. Such changes are positive ones that could be related to increased positive interaction with family members. Examples are improved communication and increased emotional and practical support. Self-report or staff ratings are the most likely data sources.	A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B)	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Family relationships (Long Term)</p>	<p>The number and percent of program youth who have exhibited a desired change in family relationships 6–12 months after exiting the program. Such changes are positive ones that could be related to increased positive interaction with family members. Examples are improved communication and increased emotional and practical support. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are the most likely data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)</p>	
<p>Family functioning (Short Term)</p>	<p>The number of program youth, or youth and families, who have exhibited an improvement in family functioning. Self-report or staff ratings are the preferred data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B)</p>	
<p>Family functioning (Long Term)</p>	<p>The number of program youth, or youth and families, who have exhibited an improvement in family functioning 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report or staff ratings are the preferred data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Substance use (Short Term)</p>	<p>The number and percent of program youth who have exhibited a decrease in substance use during the reporting period. Self-report or staff ratings are most likely data sources.</p>	<p>A. Number of program youth served during the reporting period with the noted behavioral change B. Total number of youth receiving services for target behavior during the reporting period C. Percent (A/B)</p>	
<p>Substance use (Long Term)</p>	<p>The number and percent of program youth who exhibited a decrease in substance use 6–12 months after exiting the program. The number of youth tracked should reflect the number of program youth who are followed or monitored 6–12 months after completing program requirements. Self-report, staff rating, or urinalysis are the most likely data sources.</p>	<p>A. Total number of program youth exiting the program 6–12 months ago tracked for the target behavior during the reporting period B. Of A, the number of program youth with the noted behavioral change during the reporting period C. Percent (B/A)</p>	
<p>Number and percent of program youth who offend (Short Term)</p>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses. Ideally, this number should be all youth served by the program during this reporting period.</p>	<p>A. Total number of program youth served during the reporting period B. Number of program youth tracked during the reporting period C. Of B, the number of program youth who had an arrest or delinquent offense during the reporting period D. Number of program youth who were committed to a juvenile facility during the reporting period E. Number of program youth who were sentenced to adult prison during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>A youth may be “committed” to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as “sentences.”</p> <p>Other sentences may be community-based sanctions, such as community service, probation, etc.</p> <p>Example: If I am tracking 50 program youth, then B would be 50. Of these 50 program youth I am tracking, if 25 were arrested or had a delinquent offense during the reporting period, then C would be 25. This logic should follow for D, E, and F values. The percent of youth offending who are measured short term will be auto calculated in G.</p>	<p>F. Number of youth who received another sentence during the reporting period</p> <p>G. Percent offending (C/B)</p>	
<p>Number and percent of program youth who offend (Long Term)</p>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses 6–12 months after completing program requirements.</p>	<p>A. If a youth experienced multiple types of revictimization, count the youth in each relevant category.</p> <p>Definitions: Victimization Victimization can be physical or psychological; it also includes harm or adverse effects to youth’s property.</p> <p>Long Term Data Totals reflect all youth served by the program followed or monitored for revictimization 6–12 months after the reporting period.</p> <p>Sex Trafficking</p>	<p>A. Number of program youth who exited the program 6–12 months ago tracked for revictimization B. Of A, the number of program youth who were revictimized during the reporting period C. Percent revictimized (B/A) D. Of tracked youth, the number of program youth who exited the program 6–12 months ago who experienced revictimization of violence during the reporting period E. Of tracked youth, the number of program youth who exited the program 6–12 months ago who experienced revictimization of nonviolence during the reporting period. F. Of tracked youth, the number of program youth who exited the program 6–12 months ago who experienced revictimization of sex trafficking during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>Sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age.</p> <p>Labor Trafficking The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.</p>	<p>G. Of tracked youth, the number of program youth who exited the program 6–12 months ago who experienced revictimization of labor trafficking during the reporting period</p> <p>H. Number of all program youth who exited the program who experienced revictimization of both sex and labor trafficking during the reporting period</p>	
<b>PC 3: SYSTEM IMPROVEMENT</b>			
<p>Number of system-level initiatives implemented during the reporting period</p>	<p>The number of system-level initiatives implemented during the reporting period.</p> <p>Only count a system-level initiative as implemented on the date a new policy or practice is first put into operations to implement the new initiative. If your jurisdiction is implementing more than one system level initiative during a reporting period, count each initiative separately.</p> <p>If significant changes are made to an original initiative design during the award cycle, count each time a new policy or practice is put into operations during a reporting period.</p>	<p>A. Number of system-level initiatives implemented during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	<p>A systems-level initiative includes changing policies and practices to how the jurisdiction’s juvenile justice system operates. System-level initiatives impact multiple stakeholders, agencies and organizations. System-level initiatives do not include starting a new program, unless the new program is in response to a change in policy or practice.</p> <p>Preferred data source is program records.</p>		
Number of memoranda of understanding implemented	<p>The number of memoranda of understanding (MOU) implemented during the reporting period. Include all formal partnering or coordination agreements.</p> <p>Only count the date when the MOU was officially signed by all participants.</p> <p>Preferred data source is program records.</p>	A. Number of MOUs implemented during the reporting period	
Number of system planning activities conducted	<p>Number of system planning activities undertaken during the reporting period. System planning activities focus on systems-level initiatives and include creation of task forces or inter-agency committees, meetings held, needs assessments undertaken, etc. Preferred data source is program records.</p>	A. Number of system planning activities undertaken	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Number of new, revised, or rescinded systems level policies or procedures enacted during the reporting period</p>	<p>The number of new, revised or rescinded systems level policies enacted during the reporting period. A policy is a plan or specific course of action that guides the general goals and directives of programs and/or agencies. Include policies that are relevant to the systems improvement initiatives or that affect systems level operations.</p> <p>Preferred data source is program records.</p>	<p>A. Number of new systems level policies or procedures enacted during the reporting period B. Number of system level policies or procedures revised during the reporting period C. Number of system level policies or procedures rescinded during the reporting period</p>	
<p>Number of agency policies or procedures created, amended, or rescinded</p>	<p>The number of cross-program or agency policies or procedures created, amended, or rescinded during the reporting period A policy is a plan or specific course of action that guides the general goals and directives of programs and/or agencies. Include polices that are relevant to the cross-programs or agencies that affect operations. Preferred data source is program records.</p>	<p>A. Number of new cross-program or agency policies or procedures enacted during the reporting period B. Number of cross-program or agency policies or procedures revised during the reporting period C. Number of cross-program or agency policies or procedures rescinded during the reporting period</p>	
<p>Number of systems that have established interagency planning bodies</p>	<p>Number of planning bodies or interagency coordinating groups established during the reporting period. Only count the first time the planning body or interagency coordinating group meets.</p> <p>Preferred data source is program records.</p>	<p>A. Number of planning bodies or interagency coordinating groups established during the reporting period</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Number of programs and/or agencies that are sharing automated data during the reporting period</p>	<p>Number of programs and/or agencies using automated data systems that enable the appropriate sharing of justice information with partners during the reporting period.</p> <p>Only count the first time a program(s) and/or agency share justice information. A program and/or agency may have multiple partnerships to share justice information. Count each partnership between a program and/or agency separately.</p>	<p>A. Number of programs and/or agencies sharing automated data</p>	
<p>Number of programs and/or agencies that have agreements to use common intake and/or assessment forms</p>	<p>Number of programs and/or agencies that have established formal agreements to use common intake forms or assessment tools.</p> <p>Count the date when the formal agreement is signed by the program and/or agency and partners. A program and/or agency may have agreements with multiple partners to use the same common intake form or assessment tool. Count each partnership as a separate agreement.</p> <p>For programs and/or agencies with agreements to use both a common intake form and assessment tool(s) with the same or different partners, count each intake form, each assessment tool and each partnership as a separate agreement.</p>	<p>A. Number of programs and/or agencies with a formal agreement to use a common intake form and/or assessment tool</p>

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

	Preferred data source is program records.		
Number of program materials developed during the reporting period	The number of program materials developed during the reporting period. Include only substantive materials, such as program overviews, client workbooks, and lists of local service providers. Do not include program advertisements or administrative forms, such as sign-in sheets or client tracking forms. Count the number of pieces developed. Program records are the preferred data source.	A. Number of materials developed	
Number of training requests received during the reporting period	Number of training requests received during the reporting period. Requests can come from individuals or organizations served.	A. Number of training requests received during the reporting period	
Number of technical assistance requests received during the reporting period	Number of technical assistance requests received during the reporting period. Requests can come from individuals or organizations served.	A. Number of technical assistance requests received during the reporting period	
Number of planning or training events held during the reporting period	Number of planning or training activities held during the reporting period. Planning and training activities include creation of task forces or interagency committees, meetings held, needs assessments undertaken, etc. Preferred data source is program records.	A. Number of planning activities held during the reporting period B. Number of training activities held during the reporting period	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Number of technical assistance events held during the reporting period</p>	<p>Number of technical assistance events held during the reporting period. Technical assistance events include in person, telephone, or online assistance. Preferred data source is program records.</p>	<p>A. Number of technical assistance events held during the reporting period</p>	
<p>Number of people trained during the reporting period</p>	<p>Number of people trained during the reporting period. The number is the raw number of people receiving any formal training relevant to a program, systems initiative, policy, best practices or their position as program staff. Include any training from any source or medium received during the reporting period as long as receipt of training can be verified. Training does not have to have been completed during the reporting period. Preferred data source is program records.</p>	<p>A. Number of people trained during the reporting period</p>	
<p>Number and percent of training recipients with increased knowledge of program area</p>	<p>This measure represents the number of people who exhibit an increased knowledge of the program area after participating in training. Use of pre- and posttests is preferred.</p>	<p>A. Number of people trained during the reporting period who report increased knowledge B. Number of people trained during the reporting period and returning surveys C. Percent (A/B)</p>	

**Juvenile Justice and Mental Health Collaboration Program  
Discretionary 2.0 Grant Program**

<p>Percent of those served by training and technical assistance (TTA) who reported implementing an evidence-based program and/or practice during or after the TTA</p>	<p>This measure represents the number and percent of programs served by TTA that reported implementing an evidence-based program and/or practice during or after the TTA. Evidence-based programs and practices include program models that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse.</p>	<p>A. Number of programs served by TTA that reported using an evidence-based program and/or practice. B. Number of programs served by TTA. C. Percent of programs served by TTA that report using an evidence-based program and/or practice (A/B)</p>	
<p>Number of program materials disseminated during the reporting period</p>	<p>This measure represents the number of program materials disseminated during the reporting period.</p>	<p>A. Enter the number of program materials disseminated during the reporting period</p>	
<p>Number of training events held by topic during the reporting period</p>	<p>Number of training events held by topic during the reporting period. If a training event discussed multiple topics, count the training in each category covered.</p> <p>Training on the JJDP A would cover the four core requirements and the Formula Grant program. deinstitutionalization of status offenders, separation of juveniles from adults in secure facilities, removal of juveniles from adult jails and lockups, and reduction of disproportionate minority contact within the juvenile justice system.</p>	<p>A. Total number of training events held during the reporting period B. Number of training events held on the JJDP A during the reporting period C. Number of training events held on evidence-based practices and programs during the reporting period D. Number of training events held on human trafficking during the reporting period E. Number of training events held on other topics (enter text)</p>
