

## Fiscal Year 2020 Supporting Effective Interventions for Adolescent Sex Offenders and Youth with Sexual Behavior Problems Project Sites Performance Measures

The following pages outline performance measures for the **Fiscal Year 2020 Supporting Effective Interventions for Adolescent Sex Offenders and Youth with Sexual Behavior Problems Project Sites** and list the data that grantees must report on to complete a Performance Data Report. The Office of Juvenile Justice and Delinquency Prevention’s (OJJDP) requires grantees to provide data for the performance measure in the column labeled “Data Grantee Reports.” Grantees enter their data in the Performance Measures Tool (PMT), the OJJDP online system. The PMT automatically calculates simple statistics from the data entered, such as percentages and total amounts.

Grantees enter data in January and July of each calendar year and are responsible for creating their Performance Data Report. Grantees submit this report to OJJDP through the Grants Management System (GMS).

OJJDP groups performance measures for grantees performing similar grant-related activities, for example those who serve similar populations or who receive funding under the same program in the PMT under a shared program area. Grantees for this solicitation report their data under the Discretionary 2.0 Grant programs, “direct service intervention” subcategory. A full list of performance measures available in the Discretionary 2.0 Grant programs can be found at [ojjdpmt.ojp.gov/help/Grids/PDF/DiscretionaryGrid2.0\\_508.pdf](http://ojjdpmt.ojp.gov/help/Grids/PDF/DiscretionaryGrid2.0_508.pdf).

If you have questions about the PMT or performance measures, please call the **OJJDP PMT Helpdesk at 866-487-0512** or send an e-mail to: [OJJDPMT@ojp.usdoj.gov](mailto:OJJDPMT@ojp.usdoj.gov).

Performance Measure	Definition	Data Grantee Reports	Record Data Here
Number of program youth served	An unduplicated count of the number of youth served by the program during the reporting period. Definition of the number of youth served for a reporting period is the number of program youth carried over from the previous reporting period, plus new admissions during the reporting period.  Program records are the preferred data source.	A. Number of program youth carried over from the previous reporting period  B. New admissions during the reporting period  C. Sum (A+B)	
Number and percent of programs/ initiatives employing evidence-based programs or practices	Report the number and percent of programs/initiatives employing evidence-based programs or practices. These include programs and practices that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance	A. Number of program/initiatives employing evidence-based programs or practices  B. Total number of programs/initiatives  C. Percent (A/B)

	abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, CrimeSolutions.gov, OJJDP's Model Programs Guide, SAMHSA's Model Programs, etc.).		
Number and percent of youth with whom an evidence-based program or practice was used	The number and percent of youth served with an evidence-based program or practice. These include programs and practices that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, CrimeSolutions.gov, OJJDP's Model Programs Guide, SAMHSA's Model Programs, etc.).	A. The number of youth served using an evidence-based program or practice  B. Total number of youth served during the reporting period  C. Percent (A/B)	
Number and percent of program youth completing program requirements	The number and percent of program youth who have successfully fulfilled all program obligations and requirements. This does not include youth who are still in ongoing programs. Program obligations will vary by program, but they should be a predefined list of requirements or obligations that youth must meet before program completion, such as attendance and participation at a certain number of meetings or events.  The total number of youth (the B value) includes those youth who have exited successfully as well as those who have exited unsuccessfully.	A. Number of program youth who exited the program having completed program requirements  B. Total number of youth who exited the program during the reporting period (either successfully or unsuccessfully)  C. Percent (A/B)

<p>Number and percent of program youth who offend (Short Term)</p>	<p>The number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.</p> <p>The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses. Ideally, this number should be all youth served by the program during this reporting period.</p> <p>A youth may be “committed” to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as “sentences.”</p> <p>Other sentences may be community-based sanctions, such as community service, probation, etc.</p> <p>Example: If I am tracking 50 program youth, then B would be 50. Of these 50 program youth I am tracking, if 25 were arrested or had a delinquent offense during the reporting period, then C would be 25. This logic should follow for D, E, and F values. The percent of youth offending who are measured short term will be auto calculated in G.</p>	<p>A. Total number of program youth served during the reporting period</p> <p>B.
