

Fiscal Year 2020 Youth Gang Suppression Implementation Grants Program Performance Measures

The following pages outline performance measures for the **Fiscal Year 2020 Youth Gang Suppression Implementation Grants Program** and list the data that grantees must report on to complete a Performance Data Report. The Office of Juvenile Justice and Delinquency Prevention’s (OJJDP) requires grantees to provide data for the performance measure in the column labeled “Data Grantee Reports.” Grantees enter their data in the Performance Measurement Tool (PMT), the OJJDP online system. The PMT automatically calculates simple statistics from the data entered, such as percentages and total amounts.

Grantees enter data in January and July of each calendar year and are responsible for creating their Performance Data Report. Grantees submit this report to OJJDP through the Grants Management System (GMS).

OJJDP groups performance measures for grantees performing similar grant-related activities, for example those who serve similar populations or who receive funding under the same program in the PMT under a shared program area. Grantees for this solicitation report their data under the Violence Prevention Initiatives category. A full list of performance measures available in the Violence Prevention Initiatives can be found at <https://ojjdpmt.ojp.gov/help/Grids/PDF/vpgrids.pdf>.

If you have questions about the PMT or performance measures, please call the **OJJDP PMT Helpdesk at 866-487-0512** or send an e-mail to: OJJDPMT@ojp.usdoj.gov.

Performance Measure	Definition	Data Grantee Reports	Record Data Here
Number of program youth served during the reporting period.	An unduplicated count of the number of individual youth served by the program during the reporting period. Definition of the number of youth served for a reporting period is the number of program youth carried over from the previous reporting period, plus new admissions during the reporting period. Program records are the preferred data source.	A. Number of program youth carried over from the previous reporting period. B. New admissions during the reporting period.	
Number and percent of programs/initiatives employing evidence-based programs or practices.	Number and percent of programs that implement an evidence-based program or practice. Evidence-based programs and practices include program models that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources	A. Number of programs implementing an evidence-based program or practice prevention model during the reporting period. B. Total number of implementing programs during the reporting period. C. Percent (A/B).

	(Blueprints, OJJDP's Model Programs Guide, SAMHSA's Model Programs, State Model Program resources, etc.).		
Number and percent of youth with whom an evidence-based program or practice was used.	Number and percent of youth served with whom an evidence-based model or program was used. Evidence-based models and programs include those that have been shown, through rigorous evaluation and replication, to be effective at preventing or reducing juvenile delinquency or related risk factors, such as substance abuse. Model programs can come from many valid sources (Blueprints for Violence Prevention, OJJDP's Model Programs Guide, SAMHSA's Model Programs, etc.).	<ul style="list-style-type: none"> A. Number of youth served using an evidence-based model or program during the reporting period. B. Number of youth served during the reporting period. C. Percent (A/B). 	
Number and percent of program youth who offend/reoffend during the reporting period (short and long term).	Number and percent of participating program youth who were arrested or seen at a juvenile court for a delinquent offense during the reporting period. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source. The number of youth tracked should reflect the number of program youth who are followed or monitored for arrests or offenses. Ideally this number should be all youth served by the program during the reporting period. A youth may be "committed" to a juvenile facility any time that he/she is held overnight. Certain jurisdictions refer to adjudications as "sentences." Other sentences may be community-based sanctions, such as community service, probation, etc.	<ul style="list-style-type: none"> A. Total number of program youth served. B. Number of program youth tracked during the reporting period or who exited the program 6–12 months ago and were tracked during the reporting period. C. Number of program youth who had an arrest or delinquent offense during the reporting period. D. Number of program youth who were committed to a juvenile facility during the reporting period. E. Number of program youth who were sentenced to adult prison during the reporting period. F. Number of youth who received another sentence during the reporting period.

	monitored for victimization. Ideally this number should be all youth served by the program during the reporting period or 6–12 months post program completion.	D. Percent of youth victimized (short term) (C/B).	
Number and percent of program youth who experience a gun-related victimization (short-term measure).	Number and percent of program youth who were harmed or adversely affected by someone else’s criminal actions during the reporting period. Victimization can be physical or psychological; it also includes damage to one’s property. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.	A. Total number of program youth served. B. Number of program youth tracked during the reporting period for victimization. C. Of youth tracked, the number of program youth who experienced violent gun-related victimization during the reporting period. D. Of youth tracked, the number of program youth who experienced nonviolent gun-related victimization during the reporting period. E. Percent of youth victimized by a gun-related offense (short term) ((C+D)/B).	
Number and percent of program youth who experience a gun-related victimization (long-term measure).	Number and percent of program youth who were harmed or adversely affected by someone else’s criminal actions during the reporting period. Victimization can be physical or psychological; it also includes damage to one’s property. Appropriate for any youth-serving program. Official records (police, juvenile court) are the preferred data source.	A. Number of program youth who exited the program 6–12 months ago and were tracked during the reporting period for victimization. B. Of youth tracked, the number of program youth who experienced violent gun-related victimization during the reporting period. C. Of youth tracked, the number of program youth who experienced nonviolent gun-related victimization during the reporting period. D. Percent of youth victimized by a gun-related offense (long term) ((B+C)/A).	

Youth Gang Suppression Implementation Grants Program

Performance Measure	Definition	Data Grantee Reports	Record Data Here
Number of planning activities conducted (gang).	Activities include meetings held, needs assessments undertaken, and so on, related to reducing gang-related activity.	A. Number of gang-related planning activities conducted during the reporting period.	
Number of stakeholders (task force, coalitions, agencies).	Number of additional stakeholders (government agencies, nonprofit organizations, community groups, etc.) joining in violence prevention efforts during the reporting period.	A. Number of stakeholder relationships built during the reporting period.	
Number of memoranda of understanding (MOU) developed during the reporting period.	An MOU is an interagency agreement whose purpose is to enable all parties to facilitate the conduct of certain efforts of mutual interest (e.g., specifying the types of information to be shared, stating the terms of the agreement, and including the signatures of all parties to the agreement). Include all formal partnering or coordination agreements. Program records are the preferred data source.	A. Number of MOUs developed during the reporting period.	
Number of agency policies or procedures created, amended, or rescinded.	Number of cross-program or agency policies or procedures created, amended, or rescinded during the reporting period. A policy is a plan or specific course of action that guides the general goals and directives of programs and/or agencies. Include policies that are relevant to the topic area of the program or that affect program operations. Program records are the preferred data source.	A. Number of program/agency policies or procedures created, amended, or rescinded.
